

Gary, OIT recently introduced Webex self-service for all GT employees. The link is below. The instructions are contained on the site, but essentially, there are 2 hosting options – schedule a meeting for a future date or start one instantly (one-click meeting). Additionally, the VOIP audio is adequate, but not optimal. I recommend using the Facilities conference bridge line (info below). There is a calendar (fac-conf-telecom) for reserving the conference bridge line because we had issues in the past with its use.

Call in: 404-894-0046

Access: 10014

Chair code: 11014
