Subject: Fee Billing on GTFI Projects

All,

Please read through the email below. On GTFI projects, where contracts are not routed through our accounting system, we need to meet with John Richardson to set up a billing cycle for Facilities Fees. You'll need to let John know your budgeted \$amount for fees, if there is a GT Peoplesoft # that needs to be hit, or if invoices need to be submitted to GTRI for payment. These fees support the salaries of a large number of staff in our department so it is very important that we collect them.

When you have time, please take a few minutes to meet with John to make a plan for your current project/s.

Thanks
Kim

Subject: Fee Billing on GTFI Projects

John,

As a follow up to our meeting, we need to check our billing for Facilities Fees on these projects where contracts do not route through our system. We need to confirm the budget with the PM so we don't overbill what they are forecasting. For example, Football Locker came in under budget, so we need to bill against the actual funds expended. Student Center has some sort of alternative agreement and the budget has been reduced because we have a program manager. We also need to confirm with the PM where the bills should hit – For example on Dalney, Brad may want the bills to hit the GT PS#, not the bond funds.

CAP Project:

- * Dalney (Brad)
- * Football Locker Room (Lindsey)
- * GTRI Cobb (Lindsey)
- * Kendeda / Living Building (John)
- * Student Center (John) no GTFI contracts to date – also note that we reduced our fees on this project.

Minor Projects:

- * North Ave Domestic Water Heater (Brad)
- * North Ave South Deck (Brad)
- * CNES Back End Phase II (Cristina)
- * CODA Power (Kynthia) - project has not started yet.

Subject: GTFI Contracts - Abila Accounting Software - New Requirements

All,

GTFI is going to start tracking our encumbrances (commitments) in their Abila accounting system. Currently, they only track paid-out amounts. This will be very helpful as a tool for project managers to reconcile their project accounting. We will have access to the Abila software here, and David Goldfarb's team will be

We need some near term assistance from PMs managing GTFI Projects as follows:

- Please include **AIM project number and GTFI contract number on all memorandum coversheets for contracts and invoices moving forward.**
- Be sure to log all contracts and assign a GTFI contract number on our internal GTFI contract numbering log. (Don't add a contract number for change orders or add services.)

Long term transition to Abila:

I will request a copy of Walter's current accounting spreadsheets for our current projects, and we may need to provide him with a list of contracts (encumbrances) for ongoing larger projects so that GTFI can get these projects caught up in Abila. More to follow on this.

Let me know if you have any questions.

Thanks
Kim

Subject: GTFI Contracts - Insurance Certificates

All,

Right now insurance requirements for GTFI projects vary by project / contract. We are working to standardize this and hopefully bring this oversight under our Facilities contract administrators.

In the interim, for all of your projects that are GTFI projects, where GTFI has executed the contract, each of you need to take responsibility for:

- Sending the first insurance certificate to Aisha so that she can have her outside counsel review it for coverage and ensure that coverage meets contract provisions.
- Make sure we have a current insurance certificate on file for all contracts.
- File all insurance certificates that you receive on the P-drive in the project folder.

A few things to remember on GTFI projects – see yellow highlighting on sample attached.

- Certificate holder should be GTFI
- Additional insured should be GIT and BOR
- Project name should be on certificate.
- Limits are based on contract language and may exceed BOR requirements.

Note that sometimes the certificates are mailed to Aisha, and then she forwards them on to us. I delivered a batch of them recently to each of you.

INSURANCE REQUIREMENTS

- GTFI has different insurance requirements which are outlined in the contract by project.
- Some differences include: GTFI is listed as a certificate holder, the limits may exceed BOR requirements, and GIT and BOR need to be listed as additional insured.
- PM Responsibilities:
 - Ensure that current certificates of insurance are on file.
 - Ensure that insurance certificates are reviewed by GTFI before contracts are executed.

Subject: Memo Templates - GTFI Contract Approval + Invoice Approval
Attachments: GTFI Invoice Memo.docx; GTFI Contract Routing Memo.docx

All,

Lets start using the same memo format for internal approval and routing of contracts to GTFI, and for invoices submitted to GTFI. Attached are sample memos on our current Facilities Management letter head.

Items to Note:

- Include the GTFI contract number and GT AIM project number.
- Log ALL contracts on the GTFI log on the CAP Projects Drive.
- Route all GTFI contracts through me and Scott regardless of what the DMSA or PMSA says....
- Maintain a copy of all executed contracts, insurance certificates, and invoices in your project file on the Projects Drive. (This is the only record copy on GTFI projects!)

We will eventually get this into Image Now, but for now let's all try to do things the same way.

Please let me know if you have any suggestions for changes. I'll put these on the forms website for future reference.

Thanks
